Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
A newly executed oath or declaration must be filed in any continuation-in-part Application and must recite Applicants claimed domestic priority under 35 U.S.C. 120.

Please note a corrected filing receipt may be necessary.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: There is nowhere in the disclosure any mention of cam protrusions as stated in Line 4 of Claim 33.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 32 and 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Estabrook et al (US 5,911,706). Estabrook et al discloses a port device for implanting in a patient for subcutaneous access comprising a housing having a needle receiving apparatus, lock means comprising a collet, said collet comprising a slit sleeve having fingers which when engaged by a surface of said lock member, are compressed radially inwardly against the catheter, and a lock member responsive to application of a cam means (Figures 1B-1D, 2A-2B; Figure below).

Allowable Subject Matter

Claim 31 is allowed.

Response to Arguments

Applicant's arguments filed on October 19, 2004, have been fully considered but they are not persuasive. Examiner has provided below a labeled figure of the device of Estabrook with all of the claimed limitations of the instant application. For purposes of the rejection, Examiner uses the definition of cam found in the Merriam-Webster's Collegiate Dictionary Tenth Edition as meaning a rotatable or slidable piece. Thus, (106) of Estabrook, Figure 2A is the cam means, since it is a piece that can be rotated or slid.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathryn L. Thompson whose telephone number is 703-305-3286. The examiner can normally be reached on 8:30 AM - 6:00 PM: 1st Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Casler can be reached on 703-308-3552. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
